LC Number: SD565 . U5385 1998 OCLC Number: (OCoLC)42822527 Excerpt: . . . B-280732 ADP ADP Costs. In the regions we reviewed, 71 percent of the costs charged to the five funds were classified as indirect - a total of almost 10 million in 5 years. Again, under No. 4, we believe such costs would be SFFAS classified as direct to the degree that the employees associated with the costs normally charge their time that way. As with the assignment of ADP ADP unemployment and disability costs, we would expect costs to mirror those of salaries and to be classified as direct whenever people to whom they are assigned charge their time directly. Classifying these types of costs as indirect overstates indirect costs overall and understates direct costs. Just as important as clarifying how costs should be classified, however, is ensuring that Forest Service offices apply these classifications consistently. If individual offices continue to vary in their decisions about how, when, and whether to implement accounting policies and definitions, the data produced will continue to have limited validity, and the Forest Service will have little reliable information upon which to judge whether indirect costs are truly rising or falling, let alone why. Because centralization represents such a change in the Forest Services approach of giving great latitude to local offices, oversight by Forest Service headquarters and regional officials will be crucial to this effort. Over the 5-year period we reviewed, the Forest Service took many actions Conclusions to reduce costs, but indirect expenditures charged to the five funds reviewed increased nonetheless. Thus far, congressional attempts to affect indirect costs (through...
