This ebook is worth acquiring. Better then never, though i am quite late in start reading this one. You will not truly feel monotony at at any time of your own time (that's what catalogues are for about if you ask me).

The minimum is added from a compared Aneroid observed within a short distance of the Observatory by one of the authors. It would be idle to discuss the probable cause of the difference between the minima of the Calcutta and Barrackpore observations and that between the latter and Moisingunj, as those of Barrackpore were made with an Aneroid that has been compared and corrected only for the small ordinary daily range varying from 0.1 to 0.15 of an inch.
