Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: French . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Xviith International Congress Of Medicine, London, 1913: Abstracts Of Reports The application of heat and cold to various areas of the auricle has established the fact that the impulses are created in the same neighbourhood; experiments in which injury to the node (mechanical, chemical, and thermal) has been employed, lend support to the same conclusion. The sinu-auricular node is the pacemaker of the heart in all mammals. Abstract of Report by Dr. Ivy McKenzie. The sinu-auricular node and the auriculo-ventricular node and bundle have their homologues in the various vertebrate hearts. In the fish they are in the form of rings of specialised muscle surrounding the sinu-auricular and auriculo-ventricular orifices. They become transformed from rings to large spindles as a result of the morphological changes in virtue of which the heart becomes divided for the propulsion of arterial and venous blood. The sinu-auricular spindle is derived from the original sinu-auricular ring, and the auriculo-ventricular spindle is probably derived partly from sinu-auricular tissue and partly from auricular canal; the former derives its main nerve-supply from the right side and the latter from the left. Their function is associated in some way, as yet unexplained, with the coordination of the cardiac movements. Section I. Anatomy and Embryology. Discussion 2. The Early Stages of the Human Ovum. Abstract of Report by Professor A. C. F. D Eternod. This report has for its object a brief resume of the principal acquisitions of high importance which have been made in this region in the last few years, and a criticism of the numerous theories to which they have given rise. The author follows the ovum step by step from its...
