Cornerstone. Paperback. Book Condition: new. BRAND NEW, The Ghost Hunters, Deborah Blum, In Victorian Britain, a group of eminent scientists got together to found a society expressly to prove the existence of ghosts. The age of Darwin represented the greatest scientific advances known to man. The tension between science and religion was exposed by Darwin's "On the Origin of the Species" in 1859, which challenged the basic tenets of belief. Yet, many of those in the forefront of the scientific revolution could not give up the idea of a higher reality. Life after death was the unknown frontier. Victorian society was full of mediums claiming they could communicate with the spirits of the dead. Baffling psychic phenomena occurred every day at seances: mysterious rappings were heard, furniture moved, ghostly forms appeared, the mediums spoke in the altered voices of the dead with information only their nearest could possibly know. Pyschometry involving locks of hair and watches and children's toys; telepathy; ouija boards; apparitions; astral projection: all were commonplace. In 1882 the Society of Psychical Research was founded in London to investigate all these phenomena: it was a group led by some of the greatest scientists of the age but its membership also included Alfred, Lord Tennyson, Leslie Stephen, Virginia Woolf's father, John Ruskin, the Reverend Charles Dodgson (Lewis Carroll) and Samuel Clemens (Mark Twain). Six months later William James, Professor of Psychology at Harvard, and the brother of Henry James visited London and went on to set up American branch. Their experiments went on for years. Many mediums, like the notorious Madame Blavatsky, were exposed as charlatans yet there were some mediums who continued to communicate directly with another world, who despite every rigorous scientific test seemed to prove that souls survived death. This is the story of this group...
