# GLOBAL BIODIVERSITY IN A CHANGING ENVIRONMENT

Springer. Paperback. Book Condition: New. Paperback. 392 pages. The scientific community has voiced two general concerns about the future of the earth. Firstly, climatologists and oceanographers have focused on the changes in our physical environment, ie climate, oceans, and air. And secondly, environmental biologists have addressed issues of conservation and the extinction of species. There is increasing evidence that these two broad concerns are intertwined and mutually dependent. Past changes in biodiversity have both responded to and caused changes in...
