Yes, the answer is Entrepreneurship. Reap the fruits of your hard work yourself. Now, there are a lot of things you need to consider before looking for an Angel investor and this book tell you all that you need to get started. So pick up a copy and escalate to success. Filled with fun activities, that when followed will lead to the design of your Business Prototype by the end of the book. It is very amusing that, when people are asked what do you want to be and they say an entrepreneur , the next question that heads their way is how? And this is the bit that is all the more amusing, as most of them have no clue of what next or how start. Hence, with this sole thought in mind the book has been designed. This book is for those dedicated people who have the tenacity but lack the knowledge and experience in a start up. You may be a High school/college student looking for a book to refer for a project or an exam or you may be an employed person looking to establish something of your own, then this book my friend will help you in a long way. I believe Big success comes from Small steps and this is a sincere appeal i d like to make. Follow the book, understand it and apply what you learn from it.
